

Cub Scouts of America Pack 404

Laredo, Texas

Dear Mr Cienfuegos,

I wanted to take this opportunity to thank you for the use of your E/T light products. The results were nothing short of spectacular. As I had mentioned to you in our conversation , one of the scariest things that a den leader can experience, is to lose a scout he is in charge of. In a recent camping trip of all scouts in our area ,I gave some of the lights to boys from different dens in our pack. I assigned each den a color and placed them on around their neck or on their backpack. As dusk approached , I was astonished to see that I could already tell where each of my boys were and to what den they belonged. As darkness came, I could make a head count of each den instantly. Rounding up my boys and checking to see if everyone is at the camping site is now a thing of the past. Now , even when mixed with many other Packs, I can look around and say “ there are my 3 tigers, there are my 2 wolf, there are my 5 bears”, etc.

Let me also mention that your lights also underwent some pretty heavy testing while we were using them .One boy was observed throwing it against the wall thinking it bounce back like a baseball. Some were dropped in water, stepped on ,used as light twirlers but none ever failed. One boy even placed it in their ice chest overnight and in the morning it turned on with no problem.

Lastly, I recently made a weekend family getaway. One of my boys is three years and loves to swim. However, I worry because he is not yet the strongest swimmer . With the E/T light around him I can see him at all times even when he is under water. Included is a picture with a pool full of children and you can clearly see he stands out . I would highly recommend this product to any boy scout leader or father.

I hope you will consider offering it to all scouts via our scout hut stores.

Assistant Pack Leader/ Webelos Den Leader
